

POUR-N-RESTORE® OIL STAIN REMOVER

TOLL-FREE: 1.877.609.3343

EDGEWATER INDUSTRIES 18570 TRIMBLE COURT SPRING LAKE, MI 49456 U.S.A. PH: 616.846.7939 FX: 616.846.1473 WWW.EDGEWATERINDUSTRIES.COM

PATENTED

Pour-N-Restore® combines a powerful citrus degreaser with a non-leaching absorbent powder to create Micro-Extraction Technology™. This technology allows Pour-N-Restore to soak deep into concrete and masonry surfaces, locking onto embedded oil-based stains at a molecular level. As Pour-N-Restore® dries to a powder, the stain is extracted to the surface and absorbed for easy cleanup. No scrubbing. No rinsing. No mess.

FEATURES & BENEFITS

- Easily lifts deeply embedded stains with patented technology.
- No scrubbing or rinsing required. Just apply, let it dry, and sweep it up.
- Effectively captures stains for proper disposal as it dries from liquid to powder.
- Utilizes the cleaning power of citrus to create a biodegradable and phosphate-free formulation.
- Accurate dispensing and no mess when using Pour-N-Restore® squeeze bottles with the flip-top cap.
- Coverage per gallon is approximately 24 sq.ft.

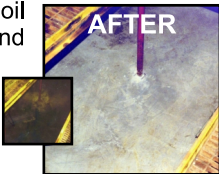

APPLICATIONS

- Pour-N-Restore® will remove stains caused by motor oil, grease, anti-freeze, transmission fluid, hydraulic fluid, cooking oil, food grease, citronella oil, wax, and other oily materials.
- Perfect for garage floors, driveways, patios, and other areas where concrete, stone, brick, and similar masonry materials are found to have oil stains. Do NOT use on asphalt (Blacktop).

TESTIMONIALS

“Simply amazing stuff. One of the first products I ever used that does what it claims. Actually looking forward to using it again!” James Bebbler - NY

“Pour-N-Restore® works great! Both of our oil change bays were coated with years of oil and grease. I tried cleaning the bays with several degreasers, but nothing worked. Finally, I used Pour-N-Restore®. It pulled up all the oil and grease in one application. It is definitely the best concrete degreaser I’ve ever used.” Robert Holman - MI

NATIONAL ADVERTISING

Pour-N-Restore® is supported with proven national advertising in print, on radio, television, and online. Our primary goals are to build brand awareness and also to drive consumers to our website store locator.

Pour-N-Restore Oil Stain Remover	Conventional Degreasers
No scrubbing required.	Scrubbing is required.
No mess. Pour-N-Restore does all the work. As it dries from a liquid to a powder, oil stains are lifted and absorbed.	You work up a sweat from vigorous scrubbing, making an even bigger mess in the process.
No rinsing is required. When Pour-N-Restore is dry, simply sweep it up.	Requires you to drag out a hose and rinse the area with water after use.
Environmentally responsible. Because Pour-N-Restore absorbs the stain as it dries to a powder, proper disposal is easy. Just sweep it up.	Environmentally disruptive. While rinsing, oil gets flushed down storm drains or off to the side of concrete where it soaks into the ground.
Penetrates deeper to remove embedded stains.	Only remove surface oil, so embedded stains often wick back up and reappear.
Helps to ensure proper adhesion of coatings when used as a prep, because it penetrates deeper into embedded stains.	Because only the surface is cleaned, oily residue can wick back up and cause coatings to release.
Often requires just one application for satisfactory results.	Several applications may be needed to produce satisfactory results.
Citrus-based, biodegradable, and phosphate-free.	May contain harsh solvents or acids that are more harmful to people and/or the environment.

## 32-UNIT FLOOR DISPLAY

This high-impact floor display is the perfect way to introduce Pour-N-Restore®. It easily tells the product story with 3 full color photos on the header. The display holds 20 of the 16oz. size and 12 of the 32oz. size.

## 12-UNIT COUNTER DISPLAY

If shelf space is tight, this full color Pour-N-Restore® counter display is ideal. It attracts attention and will drive impulse sales.

## P-O-P LITERATURE

Pour-N-Restore® P-O-P literature is available upon request. Self-adhesive holder can be attached to a display, or it can be hung from a shelf.

## LOOP DVD

Educate your customers and store staff with the Pour-N-Restore® DVD. It contains a 2-minute demonstration that loops for 30 minutes. Available upon request.

## DIRECTIONS

Always test a small area before use. Do not use on wet surfaces. For best performance, use above 60°F (16°C) and provide maximum ventilation. SHAKE WELL. 1. Scrape off buildup and sweep area. 2. Apply to stain, extending one inch beyond perimeter. 3. Allow to dry completely to powder (5-8 hours or longer depending on temperature, humidity, and ventilation). 4. Sweep up. If area still appears dark, provide adequate ventilation and allow moisture to evaporate. 5. If stain remains, reapply, scrub with stiff-bristled brush, and repeat steps 3 and 4.

Test before using on sealed, colored, or painted surfaces. Prior use of other cleaners may inhibit performance. Use ¼-inch v-notched plastic spreader to maximize coverage or accelerate dry time in cooler temperatures.

## SATISFACTION GUARANTEED

When used as directed, Pour-N-Restore® satisfaction is guaranteed. Liability limited to replacement of product or refund of purchase price upon return of unused portion with proof of purchase. Prior use of other cleaners will void satisfaction guarantee.
